Sir:

AMENDMENT

In response to the Office Action dated 10/26/99, please amend the aboveidentified application as shown below:

IN THE CLAIMS

1. (Twice Amended) A service provision system for use with a communications network to provide a plurality of services to a network user, wherein data relevant to the plurality of services can be made available to the user <u>dependent upon</u> the location of the user within the network, and the user can select one or more services to be provided, said system including:
